2022 Revenues

Selling price

The average selling price of the crude oil grade marketed by TotalEnergies EP Gabon reached \$94.2/b during 2022, sharp increase of 45% compared to 2021 (\$64.8/b).

Production

In 2022, TotalEnergies EP Gabon's equity share of operated and non-operated oil production amounted 15.8 kb/d, down 31% compared to 2021 (22.9 kb/d).

This variation is mainly explained by:

- TotalEnergies EP Gabon perimeter evolution following the divestment in seven mature offshore fields (Grondin non-operated sector) completed in December 2021,
- A nineteen (19) days production shutdown occurred at Cap Lopez oil terminal,
- Damages occurred on the Anguille and Torpille sectors gas compressor.

Revenues

The 2022 revenues amounted \$521 million against \$655 million in 2021. This variation reflects TotalEnergies EP Gabon crude oil sales volume diminution as well as the absence of revenues related to treatment and storage activities following Cap Lopez oil terminal divestment, partially offset by average selling price increase during the period.
